Dear Jim,

This is a page from the Commission's first executive session, before they engaged their official reporters. The numbering, therefore, is not like that of those that follow. Ixhave and as I've told you, have analyzed all.

What I think may have unusual interest is this rather odd reflection of his private (for these were classified "Top Secret") attitude by the CIA's best legislative friend.

I'llx tell you more when I am there.

Until then, I think silence will be most helpful.

He has other interests that are very much our way and I do not want to jeopardize them in any way.

Sincerely,
